

Warp & Weave

Color courage for weavers

Color Editor

Try It: Overshot

Demo videos for desktop computers and an iPad can be found at the bottom of the lesson.

Part One. Upload your Color Palette

1. Now add some color to the warp from your Palette

Part Two. Change the Pattern Weft

1. Use Replace colors to change all the Pattern weft picks (blue) at once

Part Three. Look at your fabric

1. Click the Overshot box to see your what your wet-finished fabric with the pattern threads floating over the ground cloth will look like.
2. Click the Opposite Side box to switch between the front and back of your fabric.
